

Dear all members of the teaching staff at TECH and NAT,

Due to the very special circumstances caused by the current Corona situation, we have had to adjust the teaching schedule even after publishing it. Unfortunately, we cannot guarantee that we may not have to adjust it further in the weeks to come.

Therefore, we advise that you regularly, and in the coming weeks even daily, check the teaching schedules at the usual platforms, i.e. for courses at the Bachelor of Engineering (*diplomingeniør*) and admissioncourses at <https://timetable.au.dk/schedule> and for courses at the Bachelor's and Master's degree programmes in the field of science and engineering (*civilingeniør*) at e.g. <https://studerende.au.dk/en/studies/subject-portals/agroecology-food-and-environment/teaching/academic-calendar-and-timetable/>

Best regards,

Nat-Tech Studies Administration,  
Søren Anker Andersen
